PERSONAL STATEMENT

A B.Tech Computer Science & Design student and passionate MERN Stack Developer. I love turning ideas into real-world web applications using MongoDB, Express.js, React, and Node.js. From responsive frontends to robust backend APIs, I enjoy building the full picture. Alongside web development, I am actively sharpening my problem-solving skills by pursuing DSA in Java. My goal is to grow as a versatile full stack developer and contribute to products that make a real impact.

KEY SKILLS

- **Frontend:** React, Vue.js, Tailwind CSS, Framer Motion, Three.js, HTML5, CSS3
- **Backend:** Node.js, Express.js, MongoDB, PostgreSQL, REST APIs
- **Languages:** JavaScript, TypeScript, Python, C++, Java (DSA)
- **Mobile & Tools:** React Native, Flutter, Git & GitHub, PWA, SVG Animations
- **Soft Skills:** Problem-solving, Communication, Research & Analysis

---

EDUCATION

Madhav Institute of Technology and Science Bachelor of Technology (B.Tech) in Computer Science and Design

- 2025 – 2029 | Pursuing
- **Relevant Coursework:** UI/UX Design, Web Development, Computer Graphics, DSA
- **Achievements:** 10+ Projects Built, 15+ Technologies, 5+ Hackathons

---

EXPERIENCE

Freelance Full Stack Developer | Self-Employed / *2024 – Present*

- Built and deployed full stack web applications for clients using the MERN stack (MongoDB, Express.js, React, Node.js).
- Designed responsive, accessible frontends with Tailwind CSS and Framer Motion for smooth user experiences.
- Integrated RESTful APIs and managed databases for scalable, production-ready applications.
- Collaborated directly with clients to gather requirements and deliver iterative, feedback-driven solutions.

PROJECTS

Absolute Cinema | Movie Review System

- **Tech Stack:** JavaScript, HTML5, CSS3
- Built a full-fledged movie review application with a responsive UI allowing users to browse, search, and review their favourite films.
- Implemented dynamic content rendering, search/filter functionality, and interactive review submission forms.
- Focused on clean UI architecture with a seamless user experience across devices.

BrightPath | Student Wellness Tracker

- **Tech Stack:** JavaScript, Node.js, MongoDB

- A gamified mental health & wellness companion for students — track moods, journal thoughts, breathe mindfully, and grow with AI-powered support.
- Features achievement badges, community sharing, voice-guided meditations, habit tracking, and an analytics dashboard.
- Built a secure backend with JWT authentication, admin panel with community moderation, and RESTful API endpoints.
- Designed as a Progressive Web App (PWA) with offline support and service worker integration.
